

ECE1504 Project

Potential Papers

- ☐ [The Information Bottleneck Method](#)
- ☐ [Tightening Mutual Information Based Bounds on Generalization Error](#)
- ☐ [On a Connection between Importance Sampling and the Likelihood Ratio Policy Gradient](#)
- ☐ [Modeling Interaction via the Principle of Maximum Causal Entropy](#)

Introduction

- ☐ Walk over the high level ideas in the paper and inform the reader about what they emphasize on
- ☐ Highlight the key findings and aspects of the work
- ☐ Discuss the pros/cons at a very high level
